## The Fertility of Soil.

An Interesting Report From the State Department.

## AGRICULTURE IN BOHEMIA.

Why the Lands Remain Fertile for Hundreds of Years—But One Cabinet Officer Left in Washington—Presidential Pardons Granted—Other Washington News.

WASHINGTON, Aug. 7.—Charles Jones, United States consul at Prague, has sent the state department a report of Bohemian agriculture and its results in 1888. The statement he believes will be of interest to farmers in the eastern states, where productiveness of lands is said to have declined in such a degree that cultivation at the present low prices of agricultural produce frequently does not pay.

The soil of New England, he says, has been under culture for about two centuries, while Bohemia was settled by an agricultural race of people in the fifth century of the Christian era. The present population upon an area, not quite one-half as great as that of the state of Ohio, is nearly 6,000,000, yet Bohemian agriculture to-day stands equal to any in Europe, excepting, perhaps, the English. As a result of a thorough survey of the kingdom of Bohemia only 4.38 per cent. of its whole area was found to be unproductive.

The chief cause of the continued fertility of the soil, Mr. Jones says, is manuring. To the middle of the present century only natural manure was employed in Bohemia, since that time artificial manure has come into extensive use. The most commonly used of artificial manures are super phosphate, especially of bones and dissolved guano and bone dust, pure and chemically prepared. Those less frequently used are kaint of saltpetre, Chile, saltpetre and Thomas dust made of the dross of smelting works. The next important causes of the lasting productiveness of Bohemian farm lands, Mr. Jones says, are rotation of crops, periodical change of seeds and deep plowing.

Contract Labor Law Violated.

WASHINGTON, Aug. 7.—A report has been received at the treasury department from Walter Lyon, the United States district attorney at Pittsburg, in regard to twenty-five English glass blowers, alleged to have been brought to this country in violation of the alien contract labor law. Mr. Lyon states that he is satisfied, after making the investigation requested by the secretary of the treasury, that the law was violated. He will delay action pending instructions from Secretary Windom as to what course he shall pursue. The glass blowers are employed in the glass works of Chambers & McKee, at Jeannette, Pa. They were procured by a Knights of Labor assembly in Pittsburg from a similar assembly in England.

Wants to Take Charge of the Army.

WASHINGTON, Aug. 7.—Theodore Biednmoser, a crank, who arrived here on Saturday from New York, was arrested yesterday by Detective Horne and held at the sixth precinct station house in order that his sanity may be determined upon. Biednmoser is a Swiss, and he is laboring under the impression that President Harrison wants him to take charge of the army. He called at the White House yesterday, but was told that the president was away, and left promising to return. His meeting with Detective Horne, however, will prevent his keeping the engagement.

Three Appointments.

WASHINGTON, Aug. 7.—The attorney general has appointed ex-Congressman Zach Taylor, of Memphis, Tenn., special assistant attorney for the Western district of Arkansas, to investigate the alleged defalcation of funds paid to the agents of the Creeks and Seminole Indians last March.

Harry R. Probasco has been appointed assistant United States district attorney for the Southern district of Ohio. William S. Chance has been appointed a special agent of the treasury department and assigned to duty at Philadelphia.

But One Cabinet Officer in Washington.

WASHINGTON, Aug. 7.—Secretary Tracy left Washington for New York yesterday afternoon. Attorney General Miller started for his home in Indianapolis in the afternoon. Secretaries Windom, Rusk and Proctor left Washington with the president yesterday. With these departures of cabinet officers and with Secretary Blaine at Bar Harbor and Postmaster General Wanamaker at Saratoga, there remains but one cabinet officer, Secretary Noble, at the National capital.

Two People Pardoned.

WASHINGTON, Aug. 7.—The president has granted pardons to John W. Burkley, convicted in Georgia of passing counterfeit money and sentenced in June, 1887, to four years' imprisonment, and to Cora Staley, convicted in Indiana of a like offense, and sentenced to six months' imprisonment. Both pardons are granted on account of the bad health of the convicts.

Horrible Fate of an Engineer.

READING, Pa., Aug. 7.—Philip Dougherty, the engineer in the iron works at Bechtelsville, this county, where Thomas A. Edison's new invention, an iron ore separator, is being tested, had his clothing caught in one of the big rollers, and his body was drawn between two rollers through a space half an inch wide. The entire machinery, weighing many tons, will have to be removed, as the body is still fast between the rollers.

## OFF ON ANOTHER TOUR.

President Harrison Starts on a Visit to Secretary Blaine.

WASHINGTON, Aug. 7.—The presidential party, consisting of President Harrison, Secretaries Windom, Proctor, Rusk and Private Secretary Halford, left Washington at 9 o'clock Tuesday morning for New York over the Pennsylvania railroad. The party occupied President Roberts' private car. From New York they go to Boston and thence to Bar Harbor to visit Secretary Blaine.

Secretary Proctor will also leave the party in Boston, going thence to his home in Vermont for a short visit. The crowd at the depot was small, composed principally of people who were waiting for trains. Secretary Windom spent the few minutes he had to wait on the platform in conversation with the representatives of the press. Secretary Rusk was the last one of the party to arrive at the station, and having no time to spare nodded a quick farewell to his friends and went directly to the private car.

Secretary Windom will leave the president at Boston to attend to some customs business in that city.

Two Hours in Jersey City.

NEW YORK, Aug. 7.—The president and party arrived at Jersey City at 3:30 p. m. They were met by Cornelius N. Bliss, chairman of the state committee, and President Choate, of the Fall River steamboat line, and escorted to the tug Belvidere, which was in waiting at the dock adjoining the depot. A trip was taken in the tug as far as the Narrows. Salutes of twenty-one guns were fired from Forts Wadsworth and Lafayette as the tug passed. Returning up the harbor the distinguished party reached the Fall River line pier a few minutes before 5 o'clock, and were immediately escorted to the steamer Pilgrim, and at 5:30 started for Boston.

Secretary Rusk did not accompany the president on the boat, but took a carriage to a hotel, as he intends remaining in New York for a few days.

Inviting the President to Concord.

CONCORD, N. H., Aug. 7.—The legislature by a unanimous vote passed a joint resolution inviting President Harrison and party to visit Concord and the legislature during their stay in the east. A committee was appointed to tender the invitation to the president in Boston.

Preparing a Reception.

BAR HARBOR, Me., Aug. 7.—Walker Blaine left last night to meet President Harrison in Boston.

Mayor Anliak Palmer has issued invitations to 150 prominent society people to meet the presidential party at luncheon at 5 o'clock, Friday. The party will visit the mountain some morning in a special car of the Green Mountain Railroad company.

Tired of Living.

Several People Who End Their Earthly Career Themselves.

FRANKLIN, Tenn., Aug. 7.—Miss Jennie Tatum, aged about 60 years, was found hanging from a limb of a tree, near her home in the vicinity of Hillsboro, yesterday morning. Miss Tatum, her mother, and sister, nearly as old as herself, have lived near Hillsboro for many years, and had the entire respect and confidence of the community.

The only theory which accounts satisfactorily for the desperate act is this: That discovering they were unable to earn a support, pride and mortification at being dependent upon the charity of neighbors, so worked upon her mind as to lead her to commit the deed.

Shot Himself in a Park.

BROOKLYN, N. Y., Aug. 7.—A man about 55 years old shot himself dead in Prospect park yesterday evening. The name and address "Paul Rouse, Morris-town, N. J.," was marked on his underclothes.

CINCINNATI, Aug. 7.—The saloon keepers' rebellion has ended. Yesterday in the police court, when one of the Sunday saloon cases was about to be tried, the attorney for the new Saloon Keepers' association stated that that body had resolved to hereafter obey the law, and asked an indefinite continuance of all the cases against them, with the understanding that they be prosecuted if the defendants violate the law in the future. After a consultation with the prosecutor, the judge granted a continuance of that case for thirty days. All the other cases of a like nature were indefinitely continued.

## Effects of the Strike.

The Pennsylvania Cokers' Troubles Extending.

## BUT FEW PLANTS IN OPERATION.

All Coke Trains on a Branch of the Pennsylvania Railroad Have Been Abandoned—Furnaces Shutting Down for Want of Coke—No Trouble With the Strikers—Strikes Elsewhere.

SCOTTSVILLE, Pa., Aug. 7.—There were several important accessions to the ranks of the striking cokers. There are but two or three very small plants in operation in the entire district. No acts of violence were reported from any quarter yesterday. McClure & Company have withdrawn their offer of 64 per cent. advance.

The H. C. Frick Coke company lost several thousand dollars in coke burned up in the ovens.

Charlatte furnace at this place banked down yesterday on account of having no coke and 180 men were thrown out of employment. The Pennsylvania Railroad company have suspended all coke train crews on the southwest branch. A number of furnaces and other industries in western Pennsylvania will shortly be compelled to shut down on account of short coke supply.

The employees of the J. M. Schoonmaker Coke company, at Alice, Jimtown, Sterling and Red Stone have, it is said, accepted the company's offer of 34 per cent. advance, but it is not known when the men will return to work.

CHICAGO, Aug. 7.—Col. W. P. Read, Lyman J. Gage and J. E. Williams, who were appointed a committee of arbitration to settle the mine trouble at Streator, have announced that they were unable to agree, and presented separate propositions for the consideration of those concerned. A FATAL RUNAWAY.

A Street Car Dashes Into a Bridge, Injuring Four People.

CINCINNATI, Aug. 7.—Frank Stricker, driver on Car No. 5 of the Newport line, was fatally injured early this morning by a brake giving way. His car plunged into a stone buttress of the railroad bridge, breaking three of his ribs. He was taken to his home on Tibbatts street.

The wife of Louis C. Elsenhardt, the jeweler at York and Madison streets, who was aboard the car, was severely injured. She received cuts over the left eye and bruises about the lower limbs.

The wife of John Schneider was seriously injured, being thrown with force against the side of the car.

The daughter of James Kidney also suffered slight injuries. It is claimed that someone meddled with the brake, although this is denied by a passenger on the rear and who escaped injury by jumping off in time.

A Dispute Ends in a Murder.

GUTHRIE, I. T., Aug. 7.—Dr. Twomley, senior member of the wholesale grocery firm of Twomley & Winters, shot and instantly killed George Stevens yesterday. For some weeks a dispute has existed between the men, the grocery firm claiming half the ground on which Stevens' place of business was located. While talking the matter over yesterday, a motion on Stevens' part was interpreted by Twomley as an attempt to draw his pistol, and in an instant the grocer fired. Mr. Twomley gave himself up and was placed in the custody of Capt. Cavanaugh, of the United States army. The murdered man leaves a widow and one child in Niles, Mich.

Raised an Express Order and Skipped.

GRAND RAPIDS, Mich., Aug. 6.—Nathan Spinkney, cashier of the Lake Shore and Michigan Southern railroad in this city, is missing, and about \$1,000 of the company's funds have gone with him. He went away about two weeks ago ostensibly for a three days' vacation, but did not return. ## THE WARSAW PLAGUE.

Prominent St. Louis Physicians Go to the Relief of the Sufferers.

ST. LOUIS, Aug. 7.—Three prominent St. Louis physicians left last night for Warsaw, Ill., the scene of the mysterious plague that has already cost fifty lives. Warsaw is on the Mississippi river, five miles south of Keokuk, Iowa, and has a population of about 3,000. The business part of the town is on low ground, but the residences are on a high bluff back of the river. Two weeks ago a family was almost wiped out by a violent intestinal complaint, and since then the disease has spread until more than fifty people have died.

A dispatch from Warsaw says that six deaths occurred yesterday and the physicians cannot stay the progress of the destroyer. The physicians who went up are among the most prominent in the state, and will make every effort to relieve the unfortunate people of Warsaw. From the reports they read they ascribe the disease to a deadly microbe generated they know not how, but expect to discover on their arrival at Warsaw. The complaint, which is familiarly known as the flux, is not so destructive, and the terrible mortality is due to other causes.

BURKE'S FIRST DAY IN CHICAGO.

He Quietly Submits to Having His Picture Taken—His Arrangement.

CHICAGO, Aug. 7.—Martin Burke, the Cronin suspect, passed the night in the armory. He was closely guarded and no one was permitted to communicate with him. He will be arraigned before Judge McConnell and State Senator Kennedy, of Wisconsin, will look after his interest.

Judge McConnell left town yesterday on his vacation, and it is probable that Burke will not be arraigned until the judge's return.

State's Attorney Longenecker stated that he did not know when Burke would be arraigned. If necessary, however, before Judge McConnell's return, he could have any circuit or superior court judge come over to the criminal court to receive Burke's plea.

At about 12 o'clock Burke was taken from his cell to the photographing department of the police, and there he quietly sat for his picture. He was also measured according to the Bertillon system, after which he was returned to his cell pending his removal to the county jail.

Bloody Affair at a Barber's Parlor.

CHICAGO, Aug. 7.—The colored barbers' picnic at Island park Sunday wound up with a fatal affray. Col. Duncan imagined that Ed. Bennett had insulted his wife, and whipping out a revolver shot Bennett through the head, killing him. A crowd of Bennett's friends thereupon shot Duncan six times, and as he lay bleeding a big negro jumped on him, and with a slashed his back until the flesh lay in strips. Not satisfied with this, some of the crowd kicked the prostrate man about the head, and one hammered him with a brick. Duncan died during the night.

Illinois Crops.

SPRINGFIELD, Ill., Aug. 7.—The Illinois state board of agriculture have reports from 400 crop correspondents, embracing every county in the state, returned Aug. 1, from which the following estimates of the wheat crop have been made: Since harvest there has been a larger per cent of the wheat threshed than usual for August 1, and the measure at the machine justifies the placing of the average yield for the state at seventeen bushels per acre. Take the crop as a whole, the quality of the berry is as good, if not superior, to that of any crop ever raised in the state.

The Indians Have Signed.

STANDING ROCK AGENCY, Dak., Aug. 7.—Chief Gall, who heretofore has been most bitterly opposed to the Sioux treaty, signed yesterday morning. The Blackfeet and Upper and Lower Yantons followed Gall and signed with a rapidity and eagerness that proved the wonderful influence of that powerful chief. All day the Indians were signing, and last night the 11,000,000 acres of land which the whites have been looking and longing for so many years was theirs. The commissioners are rejoicing over their success and will leave at once.

Escaped From a County Jail.

LAFORTE, Ind., Aug. 7.—Henry Shoemaker, William Van Adken, Hubley Volstein and Joe Doe made a daring escape from the county jail yesterday forenoon, by tunneling through the rear wall. They were confined on the upper floor and lowered themselves to the ground with a rope made from their blankets. Their escape was discovered shortly after its occurrence, and the two first-named were recaptured. The others are still at large, but their capture is only a question of time.

An Old Feud Ends in a Fatal Shooting.

HOPKINSVILLE, Ky., Aug. 7.—A serious shooting affray took place at Princeton last evening, during which Charles Lewis was shot, and his brother, Albert Lewis, seriously, if not fatally, stabbed by the Hutchins brothers. A bitter feud has existed between the families, Jimmie Dunn, who was standing by, was also fatally shot in the neck. Two of the Hutchins brothers were arrested and lodged in jail. There is great excitement over the affair.

Fell From a Railroad Bridge.

LANCASTER, Pa., Aug. 7.—At 3 o'clock this morning George Kemble and John Steele, of Conshohocken, Pa., fell from the Pennsylvania railroad bridge at Stricklers, and were fatally injured. The two men were standing on the bridge and were told by train men who were shifting some cars to get off the track. In the darkness they missed their footing and fell a distance of forty feet to the ground.

## Democratic Ticket.

COUNTY—ELECTION, AUGUST, 1890.  
For County Judge—THOMAS R. PHISTER.  
For County Clerk—T. M. PEARCE.  
For County Attorney—C. D. NEWELL.  
For Sheriff—JOHN W. ALEXANDER.  
Supt. of Schools—G. W. BLATTERMAN.  
For Jailor—ROBT. C. KIRK.  
For Assessor—JOHN C. EVERETT.  
For Coroner—M. T. COCKRELL.

The Democratic majority is large enough for an "off year."

The Lexington Leader is very deep down "in the soup" since Monday's contest.

KENTUCKY'S all right, notwithstanding the gabble of the Commercial-Gazette, Bradley, Willson, Swope, Colson and all the rest of them.

If the Democrats of Kentucky had turned out Monday as they ought to have done they could have made the majority twice as large as it is.

The Cincinnati Commercial Gazette's predictions about the Kentucky election proved as unreliable as its talk about the Kentucky school system.

The United States Attorneyship for the district of Kentucky has been settled at last. George W. Jolly, of Owensboro, is the lucky man, and Wilson, Adair, and the rest of the applicants are left. It's a nice juicy "plum," but they all couldn't have it.

The Republicans in one of the Legislative districts at Louisville nominated a colored man for Representative. Ordinarily it is a Republican district, but a Democrat will represent it in the next Legislature. The Republicans slaughtered their colored brother.

The Democrats of Paris were so taken up with their primary Monday that they actually forgot for several hours that they had to elect a State Senator. The name of their nominee, Mr. Cockerell, was not placed on the poll-books until after 9 o'clock. He had no opposition and was overlooked in the scramble for the other places.

The Shelby News thinks if Kentucky is to have a new Constitution there should be incorporated in it articles "prohibiting girls from chewing wax, boys from smoking cigarettes, dudes from taking girls' arms when walking, prohibitionists from drinking on the sly, and taxing every bachelor over the age of thirty 50 cents on the \$100 for school purposes."

SPEAKING of the election Monday, the Courier-Journal says: "The triumph is a notable one, and gives the Kentucky Democracy a new claim to the confidence of the people. It turns from past disasters to future conflicts unshaken in its faith, unflinching in its courage, untroubled by the combined forces of ill-gotten wealth and political debauchery. The enemy have done their worst; they have magnified the betrayal of one man to the utmost, but the smoke of the battle rolls away, and the party faithful to the people finds the people faithful to it, and—there stands old Kaintuck."

## Stock, Field and Farm.

Nearly 14,000 hogheads of tobacco were received at Cincinnati in July.

The season of dry weather predicted by the Signal Service and by Wiggins for August seems to have set in.

Mr. Hunt, tenant of A. H. Calvert, North Fork, sold a lot of tobacco at the Miami House, Cincinnati, Friday, averaging 14 cents.

The Montana stable, with \$16,072 to its credit, was the largest winning at the Washington Park, Chicago meeting. T. Winters was second with \$11,080 and the Chicago stables third with \$10,185.

Will Gentry, of Boyle, says there is no money in raising cattle now. They have a lot which cost them \$4 last year. They fed them eight barrels of corn per head from December to May and grazed them the balance of the year, and the cattle on the New York market are now worth \$4.30 and \$4.35.

Spain has at last made her wants known, as she has advertised for 22,000,000 pounds of Kentucky tobacco of the following classification: low lugs, 18,040,000 pounds; medium lugs, 3,520,000 pounds; low medium leaf, 440,000 pounds. This is only one year's supply, to be delivered in ten monthly installments, beginning with November next and ending with August, 1890, requiring almost 1,500 hogheads monthly.

## Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach, and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

## OUR NEIGHBORS.

## MAYSLEICK.

The election went off very quietly Monday. No boodles.

Another rain Friday evening stopped threshing for several days.

Alexander Duke has a young orchard loaded down with apples, perhaps the best varieties in the county.

Elder W. T. Spears returned from Vanceburg last Tuesday, where he had been preaching for several days.

Wm. P. Clarke, one of Mason County's old-time Democrats, was in this place last Friday. He is looking well for one of his age.

Colonel John B. Herndon, of Desha Valley, was with us a short time last week. He is a great ladies' man, and still a candidate for matrimony.

J. A. Jackson received last Friday twenty barrels of flour, made of new Fleming County wheat. For sale cheap as the cheapest, for cash. Every barrel warranted.

Mrs. Castleman and her three children, of Danville, Ill., who have been visiting Mrs. Hopper here for several weeks, left on the K. C. last Thursday to spend some time in Flemingsburg.

Dr. M. H. Davis, Sanford Ruff, Rich Hopper, Mrs. M. H. Warder and daughter, Miss Maria, with Mrs. H. M. Forman, took in the camp meeting last Friday. All were delighted with Sam Jones.

Some of the colored population had a lively time in this place Monday. Their conduct was worse than that of the uneducated savage. Woman and men both engaged. Whisky and beer at the bottom. Hope we may get shut of the stuff some day.

Last Thursday, Earley G. Worthington, son of J. T. Worthington, killed a crane at his grandfather T. D. Worthington's pond that measured five feet, five inches in tip. Earley is a brag shot. A few weeks ago, he killed five wild ducks at one shot.

## GERMANTOWN.

Miss Jennie Frazer, of Maysville, is visiting the family of J. F. Walton.

The fete was an enjoyable affair, and brought the church in nearly \$100.

Miss Emma Gordon is visiting friends in Virginia, and will remain some time.

A party from Cincinnati is butchering here, Mr. Tom Kennedy having moved to Brooksville.

The union picnic Saturday at the fair grounds, given by our colored people, was well attended.

Next in order—the last and best of the season. We mean, of course, the old reliable Germantown fair.

Everybody's favorite, John Everett, was here Saturday night. John is a "plum honey," and is always welcome.

W. L. Woodward beat Dr. Frazer one vote in this precinct, while Frazer beat Poyntz twenty, and Mr. Cobb's name was Dennis, he receiving "nary a one."

Blackberry, the Democratic nominee, received ninety-nine votes, while Byar, the Independent, received one hundred and seven votes in this precinct. Indications are that Blackberry is elected by three hundred majority.

Now that we are to have street lamps, let's have them. Levy the tax and put them up. The citizens by their votes have proved clearly that they want them—only seven who wanted to stay in darkness. Wasn't that a nice majority, landlord?

I am glad my item about the Harrison hat has found so many curiosities for the Mayslick correspondent to write up, which probably never would have been heard of only for the said hat item. Such news are "scarce," and curiosities like those mentioned are "scarcer."

The election passed off very quietly, and only a light vote polled. The trustees elected for the ensuing year are as follows: F. A. Browning, D. Norris, Anderson Williams, Foster Tucker and Abner Kelly. The vote for street lamps carried with a majority of twenty-nine. The vote as to whether cows can run on the streets or not was carried by a majority of thirty in favor of the cows.

CHIC.

## HELENA.

Mr. Thomas Best was in Millersburg Tuesday.

Mrs. Mary Cook, accompanied by her niece, Miss Bessie Worthington, visited relatives in Choctaw Tuesday.

Miss Anna Kirkland returned home Tuesday, after several days visit with relatives in Ohio and at Tollerboro.

The delegation from here to Parks' Hill Sunday was the largest ever witnessed. Among them were Alex Calvert and wife, Robt. Cook and wife, Misses Bessie Worthington, Jennie White, Clara Staton, Bertie Smithers, Hattie Johnson, Lula Hord and Mrs. Mary Keith, Messrs. Robert Cord, Jeff Rice, John Ross, Rollie Kirkland, Henry Hughes, Chas. Gault, Allie McAtee, Glenn Proctor and others too numerous to mention—118 in all.

## THE INSTITUTE.

The Second Day Finds a Larger Attendance of the Teachers. What Was Done.

The institute met at 9:30 o'clock yesterday morning. After the opening exercises Prof. Roark took up the programme. "Primary Grammar and Composition, or Language Lessons," was the first subject discussed. Books should not be used in the beginning, but correct expression and readiness of expression should be taught by conversation—by story telling. A recess was taken to examine the exposition of the written work of the schools of the county.

On resuming, Prof. Roark presented the advantages of the written work and then proceeded to the further discussion of "Language Lessons." Require a pupil always to answer questions in his own language. Have letter-writing and descriptive compositions.

## TUESDAY AFTERNOON.

Prof. Roark presented the subject of "Primary Grammar," first giving a number of sentences for diagramming and analyzing and words to parse. He then resumed the teaching of language by means of written essays—descriptive and narrative—showing the progressive steps in which he would teach grammar. No text book should be used for primary grammar. For advanced grammar the text book is brought into use.

Methods of criticizing primary composition was next discussed.

After a recess the teachers diagrammed sentences and parsed words of difficult construction.

The subject of "Advanced Grammar" was then discussed, after which the roll was called. Thirty-seven teachers have registered.

Adjourned until Wednesday at 9:15 a. m.

The written work accomplished in the schools of the county the past session is now on exhibition at the High School. Visitors will be welcomed to see this exposition as well as to attend all the exercises of the institute.

## COUNTY SCHOOL EXPOSITION.

The Written Work of the Pupils the Past Year on Exhibition at the Institute.

One can form a good idea of the work accomplished in the public schools of Mason County the past year, by calling at the High School building any day during the teachers' institute, now in session. The written work of the pupils is on exhibition, and is open to the inspection of all.

The papers from the various schools certainly reflect great credit upon both pupils and teachers. The work is arranged with neatness and clearness, so that the papers of any school and of any pupil can be found with but little time or trouble. There is greater uniformity in the preparation of the papers than Superintendent Galbraith expected for the first year.

Professor Roark, of Glasgow, who is attending the institute as instructor, says this is the first county exposition of school work that he knows of in the State.

The idea of a county exposition of the work of the pupils originated with Superintendent L. W. Galbraith, and he certainly deserves great credit for carrying it out so successfully. The teachers readily joined in the move, and the result can be seen at the High School building. He has labored earnestly during his term of office to improve the public schools of the county, and the increased interest manifested by the patrons is due to a large extent to his faithful work.

The people are invited to call at the High School and inspect the papers on exposition.

How Thos. Williams Had Great Luck in holding a ticket which drew the \$25,000 prize at the May drawing of the Louisiana State Lottery. He was found at his work in the Jefferson Iron Works, where he has been employed for years as a nailer. "I was unsuccessful in capturing anything, but kept on until before the May drawing, when I sent \$2 to M. A. Dauphin, New Orleans, La., and received a one-tenth ticket numbering 87,826. The drawing took place May 14th, and on the 17th I learned that ticket 87,826 had drawn the \$25,000 prize.—Steubenville (O.) Herald, June 6.

## Taken to Frankfort.

## ATTEMPTED ASSASSINATION.

Jim Davis, Colored, Shot at Sometime Monday Night—His Story of the Affair.

Jim Davis, a negro who lives on the old Cooper farm a mile or so below Maysville, claims that some one attempted to assassinate him Monday night.

The shooting according to his story took place at his home. He received four buck-shot in his legs, but his wounds are not very serious.

Davis says he was in town Monday, and voted part of the Democratic ticket. This riled some of his colored acquaintances and one of them told him that "any d—n nigger who would vote for a Democrat ought to be shot" or words to that effect. Davis got home late that evening. Sometime after dark he says he stepped out in his yard to get some pears when he was fired at and wounded, as above set forth. His wife ran to a window as soon as she heard the noise when another shot was fired, passing through the window and lodging in the ceiling.

Such is the story he tells. It is learned that the Davis' and another colored family living near by have not been on good terms for some time. Davis says he knows who did the shooting but no warrants have yet been issued.

## "UNCLE DICK" TATE

The Authorities of Alabama Believe They Have Him Behind the Bars.

(Enquirer Special.)

SCOTTSBORO, ALA., August 6.—James W. Tate, defaulting State Treasurer of Kentucky, who was arrested here at 11 o'clock to-day by Detective Blackwell, remains in custody awaiting definite hearing from the Governor of Kentucky, who has already wired for photograph, &c. It is very evident that we have the right man, as he positively refuses to talk.

It is said he was followed from California by a man named Davis, who lost sight of him at Chattanooga. Blackwell, who is from South Pittsburg, Tenn., says he followed Tate from Chattanooga, and says that he (Tate) has changed his name three times since leaving Chattanooga, his last name being J. W. Livingston. All he will say is that he is J. Livingston. He claims that he has no trade or profession, but is a traveling chart man.

## Ruggles' Camp Meeting.

CAMP GROUNDS, August 5, 1889. At 3 p. m. Saturday evening, Rev. Thomas Hanford, of Maysville, preached one of his grand sermons. His text was from Jeremiah 17: 13.

Sunday opened with a beautiful day, and at 7 o'clock the people began pouring in and continued until we had four thousand people here.

Rev. Tackley, of Covington, preached to a vast audience. The tabernacle was packed to overflowing, and the people listened to one of the most eloquent sermons it has been their privilege to hear on these grounds. He took for his text, 1st Samuel, 14th chapter, 6th verse. Again at the 8 p. m. service, we listened to another sermon from the same preacher. Text, Daniel 6: 20. It was indeed sublime, and at the close two preachers' songs came to the altar melted to tears, seeking for mercy and asking to join the church. It was a very impressive service. The people are perfectly captivated by Brother Tackley.

There never was better order at any place, considering the vast crowd. On Sunday, Maysville was well represented. We are having a fine meeting, and the people are enjoying themselves grandly. We hope to see the smiling faces of the editor and proprietors of the DAILY BULLETIN on next Sabbath, when Rev. Hartzell will be here. J. W.

## Their Plans Failed.

Startling Disclosures of the Recent Battle.

### A CONSPIRACY DISCOVERED.

The Dervish Leader Expected to Be Assisted in the Fight by Deserters From the Egyptian Army—Suppressing Labor Meetings in Germany—Other Foreign Dispatches.

CAIRO, Aug. 7.—The startling news comes from Tosi, the scene of Saturday's overthrow of the dervish, that documents have been found in the abandoned camp of Wad-El-Jumi, and upon the dead bodies of his sheiks, which prove the existence of a wide spread conspiracy with its center among high officials of the Egyptian army, and prominent Egyptian leaders in Cairo.

The invasion of Wad-El-Jumi with his handful of dervishes is shown by these documents to have been merely an incident of this conspiracy, which was to have been followed by wholesale treason on the part of the Egyptian army. These disclosures serve to explain what has up to this time puzzled everybody here how the leader of the dervishes expected to accomplish anything with the significant force he brought with across the desert. It is now clear that he expected to be joined at the Nile by deserters from the Egyptian army, itself headed by the traitors with whom he had been in correspondence, and by some of the tribes upon whose friendship Egypt had counted.

Just why the traitors at the last moment abandoned the brave dervish leader to his fate and how it came that their treachery was not consummated is not yet clear. It is quite likely, however, that their plans were to throw off their masks and join Wad-El-Jumi's invaders after they had crossed the Nile, and that Col. Wodehouse's determination to prevent their reaching the river at all hazards and his unexpected success in carrying out this purpose threw the conspirators into confusion and disorganized their carefully laid plans.

The campaign is over and Gen. Grenfell is returning to Cairo. A force of Egyptian troops remain at Sarras and a body of cavalry is in pursuit of the one emir who survived the battle of Saturday. This leader is lurking in the hills above Bellana with a force of 200 men, and cannot escape.

#### Suppressing Labor Meetings.

BERLIN, Aug. 7.—The German police everywhere throughout the empire are treating with greater rigor the assemblies of workmen in the large cities and at the slightest provocation or at no provocation at all such meetings are broken up or prohibited in advance. A suspicion that a strike is intended or that the wisdom of ordering a strike is about to be discussed, is sufficient warrant for police interference, although, of course, the reasons stated are always different. A meeting of workmen in Munich had been arranged for yesterday to hear the report of Herr Vollmer, their representative at the recent congress of Marxist Socialists in Paris.

The police, however, posted placards in different parts of the city, and advertised in the newspapers a proclamation forbidding the meeting to be held. At the appointed time a strong force of police was on hand at the place designated for the meeting, and allowed no one to approach. The indignation among the more radical of the liberty loving German workmen is intense and certain to find expression notwithstanding all the precautions of the government.

#### Moslems and Christians Fighting.

ATHENS, Aug. 7.—The Greek government has ordered the naval forces to hold themselves in readiness for action. Hundreds of Cretan refugees have arrived in Athens, and the government has granted £40,000 out of the National treasury for their relief. The Turks are aiming the Moslems throughout the island. A fight occurred yesterday at Heradian between armed bodies of Moslems and Christians in which ten were killed on each side and many wounded. The Turkish troops were in easy reach of the fight, but remained neutral.

The government of Greece has sent a demand to the powers that they shall restore order in Crete, and has notified them that in the event of their failure so to do, Greece must take prompt action to protect her own subjects on the island against the Turks.

#### Congress of American Republics.

LONDON, Aug. 7.—The proposed congress of American republics at Washington is attracting some attention from the European press, but is nowhere treated as an event likely to lead to important results.

#### Two War Vessels Collide.

LONDON, Aug. 7.—The British men-of-war Black Prince and Invincible collided yesterday while starting for the naval parade and both were badly damaged.

#### Boulanger Will Remain in London.

LONDON, Aug. 7.—Unless his extradition is demanded, in which case he will sail for New York, Gen. Boulanger says he has decided to remain in London.

#### Water Ways Men at Work.

WEST SUPERIOR, Wis., Aug. 7.—The leading commercial boodles of the Northwest are represented in water ways convention that opened here this morning under the auspices of the West Superior chamber of commerce. The convention will adopt a memorial to congress urging larger appropriations for the deepening of the harbors on the great lakes.

#### Four-Story Building Burned.

CHICAGO, Aug. 7.—A fire in the four-story brick building, 85 to 41 East Indiana street, about 6 o'clock yesterday morning, caused the following losses: The Globe Iron company, \$5,000; Crarey & Son, machinery, \$3,000; Chicago Seal company, \$1,000; building, about \$3,000. All were well insured.

### THE REMAINING THREE.

What Was Accomplished in the Constitutional Conventions.

BISMARCK, Dak., Aug. 7.—The report of the committee on public institutions was presented to the constitutional convention yesterday. It located the seat of the government at Bismarck. The report was endorsed by the majority of the committee and in all probability will be adopted.

In the afternoon the article providing for township organization was discussed, many of the delegates opposing it on the ground that counties should be permitted to adopt or reject the system by a vote of the people.

#### At Helena, Montana.

HELENA, Mont., Aug. 7.—In the constitutional convention yesterday the section in relation to taxation of irrigating canals was defeated. The section on co-operations being under debate, an amendment making stockholders liable for the corporation debts in proportion to their holdings, was defeated; also, an amendment exonerating stockholders on payment of the par value of their stock.

#### At Olympia, W. T.

OLYMPIA, W. T., Aug. 7.—The convention by a vote of 47 to 23, rejected the section establishing a railroad commission. A section was added to the bill of rights granting the right to take land for use for irrigating ditches.

Noble C. Butler has been designated a member of the board of examiners of the Indianapolis postoffice.

The tenth annual convention of the Photographers' Association of America began at New York yesterday.

David A. Nichols, committed to jail at Logansport, Ind., for drunkenness, was found dead in his cell.

Charles Lewis and James Dunn were fatally shot, and Albert Lewis seriously injured in a shooting affray at Princeton, Ky.

J. Ellsworth Benham has been appointed auditor of Warren county, O., to fill the vacancy caused by the removal of A. H. Graham.

#### Sullivan in Court.

NEW ORLEANS, Aug. 7.—A special dispatch from Purvis, Miss., to The Picayune says: John L. Sullivan and party arrived here about 8 o'clock yesterday morning. Sullivan was arraigned before Justice Carter. He waived examination and was placed under \$2,000 bonds, to appear before the circuit court, special term, to be held here August 12. Sullivan will leave for Pass Christian to-morrow morning, and will remain there until the court meets.

#### Kentucky's Election.

LOUISVILLE, Ky., Aug. 7.—Farther returns from the election fail to change the result previously given in these dispatches. The Democrats carry everything by large majorities. Sharp gets 2,500 in Louisville, and probably 25,000 in the state. The Prohibition vote was light. The vote for a convention to revise the constitution will probably show a sufficient majority to call the convention.

#### Corner Stone Laying.

SOUTH FRAMINGHAM, Mass., Aug. 7.—The corner stone of St. Mark's school, to be erected at Southboro, will be laid this afternoon. The building will cost \$225,000, and will be the finest Episcopal school in the country. The new building will accommodate nearly one hundred boys. The school was founded in 1865 by Dr. Joseph Burnett, who gave the present buildings and about ten acres of land.

#### THROUGH A BRIDGE.

Two Men Meet Death and Another Seriously Injured in a Wreck.

WESTON, Neb., Aug. 7.—A serious wreck occurred on the Omaha and Republican Valley branch of the Union Pacific near this place yesterday morning. Freight train No. 55, with a switch engine coupled ahead as a helper, went through a bridge which had been weakened by the heavy rain of the previous night, demolishing the two engines and a number of cars.

The engineers and firemen, together with Yardmaster Conklin, of Valparaiso, went down with the wreck. Conklin was crushed so badly that he died in a few minutes after being released. Engineer Mitchell had both legs crushed and died yesterday evening from his injuries. Engineer Morgan had an eye gouged out, and the two firemen were scalded and otherwise injured.
